

Reaction List - Ch 10

Elimination Reactions of Alkyl Halides

E2 reactions

reaction of a 2° or 3° alkyl halide with a strong base

if a 2° alkyl halide is used, S_N2 will also occur unless a hindered base is used

E1 reactions

reactions of a 2° or 3° alkyl halides with a weak base

substitution reactions will also occur unless a hindered base is used

rearrangements may occur
